

ENROLLMENT

To enroll for Minuteman Home Banking please complete the enrollment form and submit to any Home State Bank location.

Upon receipt and acceptance of your enrollment, we will assign you an Identification Number and Password which you may change at anytime. For joint personal applications: If each joint account holder would also like access to his/her individual accounts, a separate application must be completed.

ACCESS

Access Minuteman Home Banking Banking at www.homestateonline.com

Your initial visit will require you to read and accept the terms and conditions for using our Internet Banking Services. You can review the agreement after acceptance at anytime by clicking on the “Review Agreement” button.

From this point on, anywhere you can access the Internet, you now have access to your bank account(s) (24 hours a day, 7 days a week) with Home State Bank’s Internet Banking Services.

To access your account(s), you will need two important pieces of information:

Your assigned 12 digit Identification Number (Minuteman ID) which is:

8 0 2 8 _____

and

Your primary Password (Minuteman Password) which is the last four digits of your social security.

For security reasons, the system will prompt you to change your Password when you initially sign in. For ease of remembering, you may also change your assigned 12 digit ID number as well. Both can be easily changed under the “Home Banking” indicator in the “Management” menu.

Should our Home Page be inaccessible for whatever reason, you can connect directly to Minuteman Home Banking at: <https://www.netteller.com/homestbk/login.cfm>

ABOUT YOUR MINUTEMAN HOME ID

You may change your twelve digit ID number at anytime. The ID must be at least 7 characters in length and no longer than 12 characters. You may use numbers, letters, and special characters. Letters are case specific (upper or lower) so be careful that you remember which you used. We strongly recommend that your new personal ID contain a combination of these elements.

ABOUT YOUR MINUTEMAN HOME BANKING PASSWORD

Your primary Password, which is the last 4 digits of your Social Security should be kept private and considered as important as any confidential identification number. You must use this number the first time you log into the “Minuteman Home Banking” system or whenever your Password is reset. You will then be automatically prompted to change the number to any 6 - 8 character alpha-numeric Password. You may also change your Password at any time by using the “Change Password” feature within the system.
